Patient Rights

Ohio Law allows You to treat with any BWC certified provider of your choice, not one you are directed to by your employer.

- * You can treat for your work injuries and file a claim regardless of who is at fault for the accident.
- * You are entitled to compensation for any permanent residual problems that result from your injuries.
- * You have the right to expect considerate and respectful treatment. The doctor or therapist are working for you.
- * You have the right to complete and current information regarding your diagnosis, treatment, and prognosis.
- * You have the right to know what other available options are for the treatment of your injury.
- * You have the right to a second opinion from the doctor or surgeon of your choice.

Our offices know that you come first. You have family and work responsibilities and your injury impacts other things in your life. We will provide you first class medical treatment including all the related paper work that accompanies work injuries.
